PROJECT EXPERIENCE

Static Personal Portfolio
Project Title: Personal Portfolio Website (Capstone 1)
Role: Zuitt Student (Front-end Developer)
Project Link
Description:
- Created a visually stunning personal portfolio website using HTML, CSS, and Bootstrap to showcase projects, skills, and professional achievements. The site is designed to be fully responsive, ensuring an optimal viewing experience across all devices.

- Developed portfolio with mobile-first design in mind. Interactive project gallery with image light box and custom CSS animations for a dynamic user experience. Styling with Bootstrap's grid system and components.

E-Commerce Platform Development

Project Title: E-Commerce Platform

Role: Zuitt Student (Full-Stack Developer)

[Project Link](#)

Description:

- Developed a full-featured e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js). The platform includes essential functionalities to enhance user experience and streamline the management of online sales. Created and optimized multiple pages, ensuring seamless integration and high performance.
- The platform features a dynamic product catalog with filtering and sorting, real-time-search, seamless cart updates, secure checkout, and a comprehensive admin dashboard with real-time analytics and user management capabilities.

Movies Catalog Web Development

Project Title: Movies Catalog

Role: Zuitt Student (Full-Stack Developer)

[Project Link](#)

Description:

- Developed a fully functional website utilizing the MERN stack (MongoDB, Express.js, React, Node.js). The platform serves as an extensive movie catalog, providing users with comprehensive details about each film. A standout feature of the catalog is its interactive functionality, enabling users to leave reviews and share their thoughts on the quality of movies for others to see.

Fitness Tracker Web Development

Project Title: Fitness tracker

Role: Personal Project (Full-Stack Developer)

[Project Link](#)

Description:

- Developed a fully functional website leveraging the MERN stack (MongoDB, Express.js, React, Node.js). The platform features a clean, user-friendly interface where users can efficiently track their workouts, with options to add, edit, and mark workouts as complete.
